## Public Facing Advocacy Writing

Christopher Columbus did not "discover" America because Indigenous Peoples have been on Turtle Island since time immemorial. Today and every day, let's remember and celebrate this land's First Peoples! It's time to recognize that celebrating the life of Christopher Columbus also celebrates the erasure of Indigenous existence. It is an act of violence, not solidarity. By commemorating Indigenous Peoples Day, we recognize colonization persists today and perpetuates oppression and violence against Indigenous Peoples as well as their sovereignty and self-determination. Changing Columbus Day to Indigenous Peoples Day is a step towards disrupting these oppressive systems and shifts focus to recognize, honor, and celebrate Indigenous Peoples, knowledge, histories, cultures, traditions, and lands. It is an opportunity to learn about the Peoples whose land we occupy and now call home and to take action in supporting the rights and sovereignty of all Indigenous Peoples.

The Wampanoag Peoples have lived in the region of what is now southeastern Massachusetts for more than 12,000 years. The year 2020 represents 400 years since colonizers voyaged on the Mayflower and founded Plymouth Colony as settlers on Native land. This anniversary is a time of reckoning with that history of violence, dispossession, removal.
