Use of FBI Joint Terrorism Task Forces to Suppress Civil Dissent

(SANTA CLARA, CA, 6/3/2020) The San Francisco Bay Area office of the Council on American-Islamic Relations (CAIR-SFBA) and Advancing Justice-Asian Law Caucus (ALC) today denounce the use of terrorism laws to target protesters and silence speech.

The U.S. Department of Justice (DOJ) announced last Friday, May 31, that the federal government is coordinating with state and local law enforcement through the Federal Bureau of Investigations (FBI) Joint Terrorism Task Force (JTTF), to investigate Antifa and other similar groups and bring charges against individuals under domestic terrorism laws. By naming Antifa, which has neither a centralized structure nor any identifiable membership, federal and local law enforcement have indicated their intention to broadly target individuals engaging in protests, dissent, and demands for justice.

In response, the two offices issue the following joint statement:

We denounce this attempt by the federal government to silence free speech and the voices of organizers, activists, and leaders confronting the state-sanctioned murders, discrimination, and injustice perpetrated against Black communities across the country.

The FBI has a long history of targeting Black activists and framing political dissent and opposition as terrorism. From the now-discredited COINTELPRO program to the surveillance of Black Lives Matter activists, the FBI has routinely used its power to surveil, infiltrate, discredit, and disrupt civil dissent. However, this large-scale and overt threat to prosecute protesters using the JTTFs and terrorism laws is new and dangerous. To use the bogeyman of terrorism to suppress freedom of speech and the freedom to protest and voice grievances is the hallmark of fascist regimes.

We stand with Black communities in resistance and demand that the DOJ retract its position, and instead use its resources to purge the scourge of white supremacy from law enforcement agencies across the country.
