Policy Issue Resources

Witness Against Torture focuses on telling the stories of the men detained at Guantanamo Bay Prison, who have been ripped from their homes, detained for years in abusive conditions and tortured by the United States. They have not been convicted of any crime. In fact, Adnan had been cleared for release from Guantanamo. We think that once you know the stories of Shaker Aamer, Samir Mukbel and Tariq Ba Odah, who were recently released, Adnan Farhan Abdul Latif, who died there, and Mohamedou Ould Slahi and Ravil Mingazov, who is still detained there, you will be fighting for human rights and justice too. Members of Witness Against Torture, a grassroots nonviolent activist group dedicated to ending torture and detention at Guantanamo, Bagram and anywhere else it is being carried out by our government, are available to come to your school, place of worship or community group, to share the story of these men.
