Demand that both the Biden administration and Congress condemn these anti-democratic death sentences and agree to withhold all financial and political support from Egypts military regime until it cancels these death sentences, releases all political prisoners, and guarantees human rights to the people of Egypt.

On June 18, Egypts highest court approved the death sentences, paving the way for a mass execution. The courts decision affirmed its earlier ruling in the illegitimate 2018 mass trial of 739 Egyptians who participated in massive anti-coup sit-ins in Cairos Rabaa al-Adawiya square in the summer of 2013.

So far this year, Egypt has carried out 51 executions. Last year between October and November, Egypt executed 57 men and women.

Since 1978, the US has provided Egypt with over \$50 billion in military aid and equipment and \$30 billion in economic assistance.

Should the Biden administration and Congress fail to exert political pressure on the Egyptian government, more innocent political prisoners will die.
