Campaign and Advocacy

During this unprecedented health crisis, immediate steps can and must be taken to fight this pandemic and protect our community members people who are incarcerated, detained, or homeless and people with substance use disorder and those that rely on access to medication-assisted treatment or medical marijuana.

Time is running out to take those most at risk of contracting COVID-19 out of harms way and free up important public safety resources to assist with this ongoing crisis.

Demand that your Governor reduce incarceration and immigrant detention capacity, stop minor arrests, and ensure continued access to medication-assisted treatment (MAT) and medical marijuana.

Sincerely,
