Policy Issue Resources

ACEs disrupt a child's emotional, social, and cognitive development. When we fail to protect our children from harm or effectively treat children who have suffered harm, we condemn them to a life of continued abuse, hardship, poor health, incarceration, and early death.

By addressing ACEs with an inter-sectional human rights lens, Human Rights for Kids reduces negative life outcomes for children. Human Rights for Kids [works on](#) a systems level to disrupt the occurrence and impact of ACEs.

Every system that impacts our children must be examined, held accountable and improved. Only by addressing these issues together can we mitigate the impact of ACEs and ensure that every child has the ability to reach their full potential and lead long, healthy, and productive lives.

Human Rights for Kids is a non-profit organization dedicated to the promotion and protection of human rights for children. Our team focuses on advancing critical issues through research and education, coalition building, policy advocacy, and strategic litigation.
