Public Facing Advocacy Writing

Vera Director Michael Jacobson and Professor Ernest Drucker discuss the impact of 40 years of domestic drug policy on U.S. incarceration rates. Dr. Drucker is professor emeritus in the Department of Family and Social Medicine, Montefiore Medical Center/Albert Einstein College of Medicine and adjunct professor of epidemiology at Columbia University's Mailman School of Public Health. His most recent book is *A Plague of Prisons: The Epidemiology of Mass Incarceration in America*.

This podcast is part of the [Neil A. Weiner Research Speaker Series](#).

For Daniel Prude, Patrick Warren Sr., and Ricardo Muoz, 911 calls led to tragedy. They are three of at least 97 people killed just last year after police responded to reports of someone behaving erratically or having a mental health crisis, according to Mapping Police Violence. A person experiencing a mental health crisis is more likely to have co ...

A Review of the Literature

As a movement across the country has begun demanding changes to policing and public safety, the need to revisit 911 call-taking and dispatching methods has become urgent. The scope of 911 has expanded and technological infrastructure has evolved, but there have been few advances in the call-taking and dispatching aspects of the system over the last ...

Documents reveal that the Federal Bureau of Prisons system plans to give its initial supply of vaccines to its staff. Some state leaders say they will exclude incarcerated people from their vaccine priority groups, in violation of CDC recommendations that people who live and work in congregate settings ought to be vaccinated first. These irrational ...
